

# FIRST CALL FOR REGISTRATION

## Fall 2010 Field Trip & Core Workshop

### ***MISSISSIPPIAN OUTCROP LITHOSTRATIGRAPHY AND DEPOSITIONAL ARCHITECTURE AS MODELS FOR SUBSURFACE PETROLEUM EXPLORATION***

**Based on outcrops in SW Missouri, NW Arkansas, and NE Oklahoma**

Led by S.J. Mazzullo, Brian W. Wilhite, and Darwin R. Boardman  
Sponsored by the Kansas Geological Society

When: Field Trip — Friday, Sept. 24 to Sunday Sept. 26  
Core Workshop — Friday Oct. 1, 8:00 AM - Noon at WSU

This 3-day trip (including travel) will examine world-class exposures of Mississippian (Kinderhookian to basal Meramecain) carbonate rocks in SW Missouri, NW Arkansas, and NE Oklahoma as analogs of petroleum reservoirs in the subsurface of Kansas and northern Oklahoma. The trip will be followed a week later by a 1/2 day core workshop that features Mississippian cores from south-central Kansas to compare to what was seen in the field.

The trip will be by bus and will depart from Wichita, KS  
**The trip will be limited to 42 registrants**  
Registration is on a first-come basis

#### **COST: \$300.00 / person**

Covers bus, lodging (double occupancy), lunches w/drinks, guidebook, core workshop, and icebreaker (evening of Sept. 24th). Dinners & breakfast are not included.

#### **Money & Registration Due by Monday, Sept. 20th**

**Make Payable to Kansas Geological Society  
212 N. Market, Ste. 100, Wichita, KS 67202  
Phone: 316-265-8676 Fax: 316-265-1013**
