CALL FOR PAPERS

The Kansas Geological Society Bulletin, which is published bimonthly in electronic format, seeks short papers dealing with any aspect of Kansas geology, including petroleum geology, studies of producing oil or gas fields, and outcrop or conceptual studies. Maximum length of papers is 6 pages as they appear in the Bulletin, including text, references, figures and/or tables, and figure/table captions. Inquiries regarding manuscripts should be sent to manager@kgslibrary.com or mailed to 212 N. Market, Ste. 100, Wichita, KS 67202. Specific guidelines for manuscript submission appear in each issue of the Bulletin, which can also be accessed on-line at the Kansas Geological Society web site at http://www.kgslibrary.com

SOCIETY Technical Meetings

All Technical Meetings are Canceled Until Fall

Save the Date KGS 2020 Golf Tournament September 28, 2020 Terradyne Country Club Wichita, KS

Please remember to check the website for the most up to date information on Technical Talks http://www.kgslibrary.com/techtalks.cfm

Note: For those geologists who need 30 professional development hours (pdh) to renew their licenses, there will be a sign-in sheet at each presentation and also a certificate of attendance.

Kansas Geological Society (KGS) Medallion for Scientific Distinction and Excellence

The Kansas Geological Society (KGS) Medallion for Scientific Distinction and Excellence may be given annually for peer-recognized, sustained significant scientific contributions to all facets of applied Kansas geology, including work either in Kansas or in surrounding states if the latter contributions pertain directly and significantly to Kansas geology. No more than one award may be given each year, an award does not have to be given every year, and members of the KGS Awards Committee that handle nominations for this award cannot nominate themselves for this award. The candidates need not be active KGS members, and they must be living at the time of selection. The primary consideration in the selection of a candidate shall be his or her sustained, published, significant contributions to any facet of Kansas geology. Contributions may be varied in form such as development of geologic concepts, advancement in discovery thinking, and recognized leadership in exploration concepts. Oral and/or written publications in peer-reviewed geological venues is a requisite criterion for any candidate for this award. The name of a candidate shall be presented by the Awards Committee to the KGS Board of Directors for their approval. Once approved, the recipient shall be presented an appropriate award in the form of a medallion or plaque recommended by the Awards Committee and approved by the Board of Directors at the annual business meeting of the society. This is a new award given by the KGS for distinction and achievement in Geological research in Kansas.

Awards Committee members are Sal Mazzullo, Mike Dealy and Alfred James.

President's Letter

Dear Members,

We work in the best industry in the world. We search for buried treasure without put-

ting on a SCUBA tank. We also live in a country with personal freedom and the unique situation which allows mineral ownership to work in the interest of our country and our own energy security. Landowner and oilman come together in a special opportunity to provide wealth, security, and provide for the common good.

Cheap energy has enabled our country spectacular opportunity, and while we would prefer to have a better price sometimes, inexpensive energy benefits us all. A sweet spot will always be found and a break-even point can always be met, and exceeded.

What used to take 5,000 barrels to break even, may now take 9,000 barrels, but a 40,000 or 50,000 barrel well provides abundant returns in an environment that sees our commodity normally increase in value.

There is no other investment that offers the volatility and opportunity if we can respond to the economic conditions dic-

A talk was given to our membership in February by Bill Coffey on Rare Earths. A slide I recall talked about the amazing amount of stored energy held within a quart of oil. It mentioned that oil is so energy dense that if it didn't exist we would have to invent it. Others may think, or wish, we are in the twilight of the fossil fuel energy cycle, but nothing even comes close to replacing it. Cheap energy is a catalyst for wealth of nations.

A single gallon of gasoline contains approximately forty megajoules of chemical energy. Dividing energy by volume yields an energy density of ten billion joules per cubic meter. Gasoline is ten quadrillion times more energy-dense than solar radiation, one billion times more energy-dense than wind and water power, and ten million times more energy-dense than human power. (Bradley E. Layton 2008: A Comparison of Energy Densities...)

I still love what I do, and I think you probably feel the same. Once you have tasted our business it's hard to turn your back on it. Through the bitterness and trials we search for oil with a bit, and once found, the exhilaration will not be forgotten, nor let go of us completely.

The easiest place to find oil is still on our maps and we will show those who share the dream with us, that hope is not dead. I encourage you to remain hopeful. We are the future of our industry and our energy dependence.

In Memoriam

KGS and Industry Members Lost in 2020

Bruce A. Reed 1953 - 2020

Reed, Bruce A. 67, unexpectedly passed away Sunday, May 3, 2020. Bruce was born in Wichita, KS to George and Helen Reed on March 30, 1953, they precede him in death. Like his father, he was a key component to Kansas' oil and gas industry and owner of TerraTech Energy. A die-hard Shocker and Steelers fan, he loved his sports. He was an amazing father, grandfather, husband, brother and friend to many. He is survived by his wife Margaret Casanova, siblings Craig Reed of Dallas, Leslee Reed of Wichita, children Melissa Reed of NYC, Michael (Krista) Reed of Wichita and Matthew (Audrey) Reed of Oakland, grandsons Parker and Drake Reed of Wichita; step-children Rob Nelson of NYC, Julie (Julio) Guerrero of SF, Tony (Karen) Nelson and Jason Nelson of Wichita. In lieu of flowers, memorials can be made in Bruce's name to Victory in the Valley, 3755 E. Douglas, Wichita, KS 67218. Due to these unforeseen circumstances, a funeral will not be held, but a Celebration of Life Memorial Service will be announced at a later date.

The Kansas Geological Society & Library

As the world continues to grow an India and China, collectively one third of the world's population becomes developed, the need for energy well not decrease without a concurrent decrease in lifestyle. And we don't seem to be headed that way.

Any current geologist should see benefits and the responsibility to help each other, to share ideas with one another, to get ideas drilled together, to keep our lives improving. Do not underestimate the role you play in producing oil. Your knowledge base cannot be left to wither.

When we share our knowledge, wells are drilled, oil is found, and new ideas are generated. The cycle continues, and will continue, until we run out of cheap energy or find an acceptable alternative.

While cheap oil will run out at some point. It's abundant now, but it will likely be gone before our youngest members pass.

Our faith and hope in our future will not be eliminated or destroyed unless we ourselves decide that to hope is too impossible. But that only removes us, as an individual, from the opportunity. I am not ready to remove that hope, or myself from the opportunity. And I also think you should not either.

Be prepared.

Minutes of the KGS Board of Directors Meeting

KANSAS GEOLOGICAL SOCIETY BOARD OF DIRECTORS MEETING

April 14th, 2020 12:00 PM ***Via Zoom***

ATTENDANCE & QUORUM:

Officers & Directors: Advisors & Guests

Tim Lauer – President Brian Fisher - VP

Tom Dudgeon – Secretary Wes Hansen– Director

Doug Davis – Director John Hastings – Director

Doug Louis–Advisor Kevin Davis–Advisor

Absent: Bob Stolzle – Treasurer

- I. Call to Order Mr. Lauer called the meeting to order at 12:05 PM via Zoom Meetings
- II. **President's Statement -** May the times you live in be interesting...

III. Society Activities/Events Update

A. All social activities and technical meetings postponed until further notice – due to social distancing

i. Upcoming Tech talks:

- B. Doug Davis will let upcoming speakers know when the social gathering limits are lifted and will express our thanks to all including those who prefer to reschedule until later.
- C. Doug cancelled April speakers, not yet contacted May speakers
- IV. **Approval of March 10th, 2020 Minutes** –Mr. Davis made a motion to accept minutes, Mr. Fisher seconded and were unanimously approved

V. Financial Report

- A. Money has been moved from WDL Checking account and Mid American Money Market accounts. Mid American account closed (approx. \$106,500) and WDL checking moved \$150,000 leaving larger balance in WDL account due to last month's instability.
- B. Monies moved to Vanguard Short-Term Bond Index Fund Admiral Shares (VBIRX) fund.

- C. Finance Committee clarified deposits could be made every 30 days, not 60 days or quarterly. Plan is to move ¼ funds into the Vanguard Funds as recommended by the Finance Committee, as soon as possible when funds hit VBIRX account.
- D. Managers Report -Nothing Yet

VI. Old Business

- A. The Building Committee update
 - i. Knights of Columbus Building orig. asking price \$450,000
 - a. See Below
 - b. Kerry Parham to be inspected building, no major flaws, and no charge to KGS.
 - ii. Going to auction on April 29th, 2020
 - a. Building Comm. supports bidding at lowball price only-\$75K max bid.
- B. Survey Questions for membership to be sent via email Survey Monkey completed, not yet sent. Will wait 30-45 days 10 questions are free to us, any more and they start to charge.
- C. IOG Proposal tabled for now everything has blown up since Tim's last meeting with John Morrison, Tim will speak with John to update him of our continued interest.

VII. New Business

- A. Auction of Knights of Columbus building April 29th, 2020
 - i. Bldg. Comm. recommend a low bid in event it goes very inexpensively
 - ii. 10% buyer premium for Auction- demo costs, update costs, -insurance plan for library to store data to keep local, but not quite usable access like we have now at the present.
 - iii. It's basically going to be a storage vault at this point, without remodeling
 - iv. \$2800/month taxes, utilities and insurance
 - v. Mr. Fisher makes motion, seconded by Mr. Hansen, to bid on the building based on the Building Comm. recommendation, up to a max \$75,000. Measure passes on a 5-2 vote.
 - vi. No KGF fundraising, part of the reason the bldg. committee wants scanning done.
 - vii. Mr. Hansen made a motion for a Secondary vote of \$99K max bid on the building all in (including 10% buyer's premium), Seconded by Mr. Fisher, Vote of 5-2 Passed to increase max bid.
- B. Funds moved to Vanguard holding account to be invested every 30 days after initial move to Vanguard Wellesley Fund
 - a. Volunteers for helping move the money (oversight while transaction is conducted online) from the IBX account to the Wellesley Fund? Mr. Lauer and Mr. Hansen will be there moving \$76K moving in the next week 1/4th of the 300K approved previously

Minutes of the KGS Board of Directors Meeting

- C. Card update Status
 - a. We were 7-8 months behind in scanning, linking and filing of cards.
 - b. Over 2000 cards have been scanned, with roughly 1600 already linked to the WDL, and half of cards now filed.
 - c. Cards are continuing to be linked.
- D. Special pricing on WDL waiving Paper Library subscription
- E. The KGS Board shall approve a special price offering for a 6-month WDL subscription at \$200. This special price will last from approval date through the end of April 2020. New subscribers and existing WDL members can obtain a 6-month new, or extended subscription at this same \$200 price. Paper Library membership subscription is also waived and not required for this special pricing.
 - i. Vote circulated via email, passed 6-1.
 - b. We have sold 24 memberships through April 10 at our special price.
- F. President Lauer was contacted by Cindy McSwain at AGH for assistance under the CA-RES act recently passed. At his direction Cindy is filling out the paperwork on behalf of the Library. Once that is completed, Board members who are signatories on our Intrust account will sign the application papers and hopefully we can get some Payroll relief.
 - a. The Payroll Protection Program is a loan of roughly 2.5 times the monthly payroll. The loan is forgiven if the money is used for payroll.
 - b. If a vote is needed should we call for one? All were in favor it's free money!
- G. Petroleum Club currently closed to the public, will notify when we can use it again.
- H. Thanks to all for meeting this way and thanks for your support of our Society
- I. Mr. Stolzle's Recent Graduate Membership Program for the KGS was discussed; a handout was circulated at the last meeting. This plan would give 2020 university graduates in the state of Kansas free memberships for 1 year. They would be responsible for costs of hard copies and downloads the same as any member.
 - i. Mr. Hastings made a motion to approve free graduate memberships, to all Kansas college geology graduates, a KGS Paper and WDL Digital Library; Seconded by Doug Davis, the motion was approved unanimously.

VIII. Adjournment

Mr. Hansen made a motion to adjourn, which was seconded by Mr. Hastings. Mr. Lauer adjourned the meeting at 1:15 PM.

KANSAS GEOLOGICAL SOCIETY BOARD OF DIRECTORS MEETING May 12, 2020

No meeting was held as there was no pressing business. Covid-19 precautions were in effect. The Petroleum Club remained closed. An informal vote by board members via email was held with the decision being made to cancel the May meeting and reconvene in June.

Editor's Note: From an old geezer

On April 20, I pulled up the Bloomberg page to check oil prices. At first I thought the -295% change in price had to be some kind of a glitch. Sadly this was not the case. The worst price I saw was \$-37.90. I had already learned in previous days that some of the local geologists had either lost their jobs or had been forced to take a cut in pay because of the low oil price. If we can safely get past this Covid-19 pandemic, we can get the world economies moving again. Our older members in their late 60's and beyond probably can endure this time.

My sincere hope is that our younger members can find a path forward until better times return. From my own experience, fellow geologists that I new in the 80's moved out of the oil business for awhile to feed their family and pay the rent. Some of these old friends jumped back in the oil patch in better times over the years. Others just stayed out because they had found a more secure livelihood. I and others of my generation have seen downturns of varying degrees over the last 40 years. Most of us persevered.

I encouraged the younger members of our society to keep their hand in the oil business, even if you have to move away from the business for awhile. Our library and society will do all we can to help you through these times. As of Mid-June, WTI is near \$40/bbl We are slowly getting back to business.

Please email me at manager@kgslibrary.com with thoughts or ideas of how the KGS can be of help.

Hold strong,

Wes Hansen

An Open Invitation to Young Geologists to Join AAPG

I would like to extend a special invitation to recent graduates and other young geological professionals to join AAPG. There are many young geologists outside the Wichita area that I have never met. They may work out of Great Bend or Hays, Kansas working with smaller oil and gas producers or working on their own as well site geologists. Kansas does have a future for the foreseeable future. The time is now to meet others from larger regional companies to forge a relationship for future employment. Young minds will be needed to replace those retiring and that other bad option.

I joined AAPG late in my career, much to my regret. I now serve voluntarily as a delegate for the Mid-Continent Section representing the Kansas Geological Society.

Respectfully yours,

Wesley D. Hansen Bulletin Editor and AAPG Delegate

Kansas Geological Foundation

Web Site: www.kgfoundation.org

212 North Market Wichita, Kansas 67202

A not-for-profit educational and scientific corporation

GOALS:

- promote geology and earth science
- preserve geological records
- establish memorials and endowments
- support field trips and seminars
- financial aid and grants to students

PLEASE HELP SUPPORT THE FOUNDATION

Kansas Geological Foundation Services

The Kansas Geological Foundation provides the following services as a part of the organization's commitment to educate the public regarding earth science.

<mark>Speaker's Bureau</mark>

A list of speakers available to talk about various aspects of geology may be obtained by contacting Wes Hansen at the KGS Library, 265-8676. This service is free to the public.

DVD/Videotape Library

The KGF maintains a DVD & videotape library focused primarily on the various fields of earth science. These tapes may be checked out without charge by the public. To obtain a list of tapes, please contact the KGS Library, 212 N. Market, Ste. 100, Wichita, KS 67202, or call Wes Hansen at 265-8676.

The Kansas Geological Foundation was founded in March, 1989 as a not-for-profit corporation under the guidelines of section 501(c)(3) of the tax code to provide individuals and corporations the opportunity to further the science of geology. It is dedicated to providing charitable, scientific, literary and educational opportunities in the field of geology for the professional geologist as well as the general public.

KGF can receive in-kind donations through which the donor may receive a tax deduction. Of equal importance, the KGF provides the financial resources to sort, process and file this data at the KGS library. If you have a donation to make, please contact the KGF at 265-8676.

Your tax-deductible membership donation helps to defray the cost of processing donations and to support public education programs about the science of geology. Annual membership begins at \$50.00 per year. Donations of \$100.00 or more are encouraged through the following clubs:

 Century Club
 \$ 100 to \$ 499

 \$500 Club
 \$ 500 to \$ 999

 Millennium Club
 \$1000 to \$5000

 President's Club
 \$5000 and over

KGF Grants

Dr. Hendratta Ali of Fort Hays State University Awarded in December of 2019 \$1000.00

Kansas Geological Foundation News

Students: The KGF awards scholarships each December and May. Check with your department chairs for applications. You must submit complete applications by the deadline.

Scholarship Applications for the Spring semester will be due by December 1, 2020.

Grants to help with research on Kansas related geology are also considered for aid.

If you are in the KGS Library and see Ted Jochems or any of the integrators, give any of them a great big thanks for their efforts in continuing the tedious process of examining, scanning and integrating new logs and geologist's reports etc. into our library and the WDL.

The Kansas Geological Foundation Needs You!

The KGF provides the financial resources to sort, process and file, in-kind donations of geological data at the KGS library. Due in large part to the KGF this unique and rare well of information is being made available to all. Please consider telling your company management and colleagues about the benefits of a library that continues expanding in part because of the KGF.

We very much value and need your financial support.

Integration Update as of April, 2020

From 01 January to 30 April, 2020, 11,728 well logs were examined by the integrators. 1,229 (10.5%) were new logs for the Walters Digital Library. 1,799 logs were re-scanned to replace poor existing digital images. The two integrators were working from home during much of this period due to the Covid-19 quarantine. They could compare donated logs to the WDL from home, but could not scan logs. Therefore, the numbers of new and re-scanned logs are presently incomplete. The full count will be reported later after scanning is complete.

PLEASE SUPPORT THE INTEGRATION PROJECT BY DONATING FINANCIALLY TO THE KANSAS GEOLOGICAL FOUNDATION

Submitted by Ted Jochems

BULLETIN CONTENT POLICY

Effective January 1, 2018, only ads for service companies and geologists offering their services will be permitted in the KGS Bulletin. Furthermore, only content of geologic interest or official KGS functions (technical talks, annual banquet, golf tourney, picnic etc.) will be permitted in this bulletin. This policy is in keeping with maintaining a professional standard for this publication. Any interpretation of this policy rests solely with the editor of this bulletin.

AAPG Needs You! Professional geoscientists, share your world!

The Mid Continent Section has 17 AAPG Student Chapters, but only 3 Visiting Geoscientists...which makes it almost impossible to have a professional geoscientist visit to each school at least once a year or even once every two years. The aim of AAPG's program is to give students a flavor of a professional life in energy resources. It also hopes to encourage dialog between industry and academia.

To be a Visiting Geoscientist bearing the AAPG flag, you are asked to have at least 5 years of experience and make at least one visit per year to a university. It can be a school with an AAPG Student Chapter, or a college/university without one. Your choice.

The Mid Continent schools with Student Chapters are: Missouri University, Fort Hays State University, Iowa State University, Kansas State University, Missouri State University, University of Nebraska, Northwest Missouri State University, Oklahoma State University, University of Oklahoma, University of Arkansas, University of Iowa, University of Kansas, University of Missouri, Columbia University of Tulsa and Wichita State University.

Contact Robbie Gries, co-Chair VGP committee, Denver, if you are interested in learning more. rrgries@aol.com

- 1. MURFIN DRILLING COMPANY, Wichita (KS), has successfully drilled and completed its #1-6 Burr to open the new Buffalo Plains Northwest oil field in Cheyenne County. The new discovery was drilled to a total depth of 5100 ft. Drill site is spotted in the NE SE SE of section 6- T3s- R37W, about four miles north and one mile east of the town of Bird City, Kansas. Commercial production was established from the Lansing-Kansas City formation. No completion details have been released. Saman Sharifaie served as wellsite geologist. This makes the 18th oil/gas field to be discovered by Murfin in Cheyenne County since their exploration began in the late 1970's. (ref: API 15-023-21530)
- **2. ARCADIAN RESOURCES LLC**, Concordia (KS), has discovered Mississippian oil deposits at the #1-27 Green High in Pratt County. Operator hired Fossil Drilling Rig #2 to drill the well to a total depth of 4500 ft. (4502 LTD). Site is located approximately NW SE SW of section 27- T27s- R12W. Drill stem shows were noted in the Lansing-Kansas City, Marmaton and Mississippian formations. Perforations were shot in the Mississippian from 4100 to 4136 ft. and 4156 to 4162 ft. Pay zones were acidized and fracture treated. No production information has been reported. Arcadian's Lunt East pool discovery well found the new reserves over one mile north of the Lunt Southeast field (estab. 3/23/2019, LKC oil) and is four miles northwest of Cairo, Kansas. (ref: API 15-151-22504)
- **3. BLACK OAK EXPLORATION**, Denver (CO), has a new Lansing-Kansas City oil discovery in Rawlins County, northwest Kansas. The #1-14 Frisbie Family is producing 34 BO and 51 BWPD from 'A' zone perforations shot between 4248-4252 ft. and in the 'H' zone from 4410-4421 ft. Production began March 6, 2020. Murfin Drilling's Rig #7 drilled the well to a rotary total depth of 4885 ft. at location in approximately N2 NE NE SE in section 14- T2s- R36W. Closest recognized production nearby can be found nearly one mile to the east in the one-well Energy North field in the SE/4 of section 15. In July

- 2015, Samuel Gary Jr. & Associates completed the #1-15 Frisbie for 26 BOPD from the Topeka and Lansing-Kansas City zones. Black Oak's new oil field has not been named. It is located about six miles north and two miles east of McDonald, Kansas. (ref: API 15-153-21244)
- 4. COBALT ENERGY LLC, Wichita (KS), has successfully expanded the Hatcher Northwest oil field in Graham County with the discovery of new Arbuckle oil pay source. Cobalt established the Hatcher Northwest pool in late 2018 when the #1-36 Elizabeth A, SE/4 of section 36- T8s- R22W, averaged 87 BOPD with production coming from the Lansing-Kansas City formation. Operator drilled their first step out well, #2-36 Elizabeth A, three-quarters mile west of the pool discovery well in the SW/4 of section 36. The #2-36 encountered oil deposits in the Arbuckle Dolomite and has been designated as an infield wildcat discovery in the pool. Murfin Drilling tools drilled the well to a rotary total depth of 3801 ft. Field area is located about three miles south and six miles east of Hill City, Kansas. Well details remain confidential currently. (ref: API 15-065-24182)
- **5. SHELBY RESOURCES LLC**, Lakewood (CO), has established a new oil field in Rush County with the completion of the #1 Maresch Unit, drilled in approximately the SW SW NW NW of section 32-T19s-R19W. Discovery Drilling's Rig #4 bottomed the hole at a rotary total depth 4764 ft. The well is completed and on pump making 25 BO and 66 BWPD from perforations shot in a Cherokee Sand section from 4265-4267 ft. Jeremy Schwartz and Jeff Zoller were on site to supervise geological operations. The new Maresch discovery lies over three-quarters mile east of multi-pay production in the Shiley North pool (estab: 1961 LKC, Cherokee and Marmaton oil), and about seven miles south and five miles east of the town of Alexander, Kansas. (ref: API 15-165-22171)
- **6. MURFIN DRILLING COMPANY**, Wichita (KS), has recovered crude oil from the Lansing-Kansas City formation at the #1-24 Dorsch, spotted in C N/2 NW SE in section 24- T2s- R 38W, in Cheyenne County, northwest Kansas. Discovery site is located about one mile west of Murfin's #1-20 Culwell (G) that was completed in early 2018 for 250 BOPD in the NW/4 of section 20. The Culwell (G) produced oil from the Lansing-Kansas City and Cherokee zones, resulting in the establishment of the Ken Southwest field. The new Dorsch discovery lies seven miles north of Bird City, Kansas. Brad Rine served as well site geologist. All drilling and completion information remains confidential. (Ref: API 15-023-21533)
- 7. **DOWNING-NELSON OIL COMPANY**, Hays (KS), has added new oil pay production to the Sunny Slope Northeast field in Trego County. Downing-Nelson first discovered the field in 2006 when their #1-14 Stalnaker Dinkel well in the SE SW of section 14- T14s- R21W produced 45 BOPD from the Marmaton formation. In 2013, they completed their second well, #1-14 Stalnaker B, NW SW in section 14, for 50 BOPD from the Marmaton. Now, operator has stepped out over five-eighths mile to the southeast and drilled the #1-23 Alson in approximately NW NE SE NE in section 23. The infield wildcat has discovered new Lansing-Kansas City oil reserves within the pool and is producing 15 BO and 4 BWPD from perforations placed between 3686-3690 ft. Discovery Drilling's Rig #2 drilled the well into the Arbuckle at a total depth of 4038 ft. Field area is located nearly seven miles south and two miles west of Ellis, Kansas. (ref: API 15-195-23092)
